NEW DATA REVEALS FEDERATION RESEARCHERS RANK AMONG WORLD'S BEST

A group of Federation University Australia researchers have been named in a distinguished list of the world's most cited scholars.

Each year Elsevier, a global leader in information and analytics, and the prestigious Stanford University compile a list of the world's top academics based on the number of citations received in the previous year. In 2023, 15 researchers from Federation University were listed in the top two per cent in their respective fields in a strong endorsement of the University's research capabilities.

The researchers in the list represent a variety of disciplines including Education, Energy, Engineering, Nursing and Sports Sciences. Two of the listed researchers include the Executive Dean of two of Federation's institutes; the Institute of Health and Wellbeing, Professor Remco Polman, and the Institute of Innovation, Science and Sustainability, Professor Iven Mareels.

The following list details the Federation researchers who rank in the top two per cent globally in their respective disciplines.

Cardiovascular System & Hematology

Yutang Wang

Education

Gary Falloon

Energy

Nima Amjady

Syed Islam

Electrical & Electronic Engineering

Jiefeng Hu

**Quote attributable to Federation University Australia Vice-Chancellor and President,
Professor Duncan Bentley**

“The latest data from Elsevier and Stanford University reveals that many Federation University researchers are globally renowned in a number of disciplines. Having researchers of international renown not only enhances our overall research capability and impact, it also helps attract the best and brightest post-graduate students to our campuses who have the prospect of being mentored by true leaders in their field.”

About Federation University Australia

With a history spanning over 150 years, Federation University Australia is Victoria’s premier regional dual-sector university with campuses located in Ballarat, Berwick, Gippsland and Wimmera. From 2018-2023 Federation ranked number one in Australia for first-generation student enrolments. In a first for Australia, the globally recognised co-operative education model will be embedded across all Federation programs from 2025.
